Security

This payment portal, hosted by Cornerstone Payment Systems, takes precautions to protect our users' information. When users submit sensitive information via the website, your information is protected both online and off-line. When our registration/order form asks users to enter sensitive information (such as credit card number, social security

number, and/or Federal Tax ID), that information is encrypted and is protected with SSL encryption software. While on a secure page, such as our order form, the lock icon on the bottom of web browsers such as Netscape Navigator and Microsoft Internet Explorer becomes locked, as opposed to un-locked, or open, when you are just 'surfing'. While we use SSL encryption to protect sensitive information online, we also protect user-information off-line. All of our users' information, not just the sensitive information mentioned above, is restricted in our offices. Only employees who need the information to perform a specific job (for example, our billing clerk or a customer service representative) are granted access to personally identifiable information. Our employees must use password-protected screensavers when they leave their desk. When they return, they must re-enter their password to re-gain access to your information. Furthermore, ALL employees are kept up-to-date on our security and privacy practices. Every quarter, as well as any time new policies are added, our employees are notified and/or reminded about the importance we place on privacy, and what they can do to ensure our customers' information is protected. Finally, the servers that we store personally identifiable information on are kept in a secure environment, behind a locked door or cage.

If you have any questions about the security at our giving portal hosted by Cornerstone Payment Systems, you can send an email to info@cornerstone.cc.

Opt-out requirements

All nonaffiliated third parties to whom we disclose your nonpublic personal information are contractually prohibited by us to disclose or use the information other than to carry out the transactions that you have requested. Accordingly, there is nothing for a user to opt out of with respect to how we currently use their non-public personal information.

Notification of Changes

If we decide to change our privacy policy, we will post those changes on our Homepage so our users are always aware of what information we collect, how we use it, and under circumstances, if any, we disclose it. If at any point we decide to use personally identifiable information in a manner different from that stated at the time it was collected, we will notify users by way of an email or US mailing so as to enable users to "opt-out" if we use their information in this different manner. We will use information in accordance with the privacy policy under which the information was collected.
